

Don't Kill a Bear!

If you feed a bear, or leave food around for the bear to find, you "teach" the bear to approach people.

Bears that approach people can be easily hit by cars or shot by poachers.

"Problem bears" that annoy or threaten people must be trapped, and removed from the park or destroyed

- Don't leave food at campsites or picnic tables.
- Store all food in the trunk of your car.
- Clean up all food scraps.
- Keep dogs and pets on a 6-foot leash.
- Never feed a bear!

If you feed a bear you can be fined up to \$5,000 and jailed for up to 6 months.

DOWN

A large black billboard with the word "DOWN" in white, bold, sans-serif capital letters. The letters are filled with a grayscale image of a cityscape, with the Statue of Liberty prominently visible in the center. The billboard is mounted on a building facade, with several windows visible above it. To the left is a modern building with a glass facade, and to the right is a classical-style building with many windows. In the foreground, there are streetlights and a traffic light showing a green light.
